Improving the communication skills and quality of life for adult patients and their families.

Peninsula Associates is a full-service speech and language private practice with offices in Menlo Park and San Mateo.

Our clinicians provide speech, language and learning services for all ages, including infants and seniors. Individual and group therapy and special programs are offered year-round.

Peninsula Associates is committed to our two missions:

- Providing the best speech-language-learning services possible.
- Maintaining a positive, supportive work environment for the best speech language pathologists in Northern California.
